

Patient Information for Pediatric Visits for 12 – 18 year-old adolescents

Because of our respect for you, as a young adult, we would like to offer you time to discuss issues with your doctor without your parent's presence. We promise you confidentiality. Only if we become concerned that you are going to hurt yourself or someone else, will matters be discussed with your parents. We do encourage you to discuss most issues openly with your family and hope to help you think of ways to do this.

You may be experiencing behaviors that place your health at risk. Please help us help you by honestly answering the following questions:
